COMIREX

EXRAND

[redacted] reported on yesterday's meeting. There were briefings by [redacted] on image manipulation, by [redacted] on special imagery acquisition and by [redacted] on IEG's search performance improvement program. There was also a tour of IEG.

EXSUBCOM

[redacted] reported on recent events:

EXSUBCOM Trip to St. Louis. Reported that much of the work being done there is point targeting for our ICBM's, SAC bombers, and radar imagery maps for TAC and SAC. A lot of this work is still being done with the KH-4 materials [redacted] [redacted] stated that many of the R&D items being worked on seemed practical.

PURCHASE OF NEW EQUIPMENT

Light Tables. IAS procurement action is being delayed pending possible joint procurement with DI-8.

Plastic Shields for Typewriters. It was suggested that Gates plastic shields be purchased for the mag card typewriters. [redacted] recommended that we hold this until the light table procurement is completed, due to lack of funds.

Dual IBM Mag Card Typewriters. Four mag card typewriters will be replaced by the newer models within the next six months. Mr. Allen suggested members judge from experience on a case-by-case basis the need for replacing second mag card typewriters in the divisions. [redacted] stated that IAS will be the first office in the Agency to use this equipment. [redacted] also noted that Agency Information Control people will start a survey sometime next year to insure that all mag card typewriters are being fully utilized.

Filing Equipment. Decision on purchase of new equipment is delayed pending reorganization of IAS.

DESK TOP CRT'S

[redacted] announced the electricians are wiring IAS up for desk top CRT terminals. When the terminals are ready, operational training sessions will be scheduled.
